

Execute basic Linux commands (e.g., ls, cd, mkdir, rm, touch) to manipulate files and directories, with an emphasis on understanding their usage.

---

```
yash@Yash1100: ~  
yash@Yash1100:~$ ls  
yash@Yash1100:~$ mkdir projects  
yash@Yash1100:~$ cd projects  
yash@Yash1100:~/projects$ touch README.md  
yash@Yash1100:~/projects$ ls  
README.md  
yash@Yash1100:~/projects$ mkdir src  
yash@Yash1100:~/projects$ cd ..  
yash@Yash1100:~$ rm -r projects  
yash@Yash1100:~$ ls  
yash@Yash1100:~$ _
```
